Phone: 417-739-4903 Fax: 417-739-2752

I agree to comply with the Kimberling City Code of Ordinances, and that all construction will comply with the 2006 International Building Code, the 2006 International Residential Code, the 2006 ICC Electrical Code- Administrative Provisions, the 2006 International Mechanical Code, and the 2006 International Plumbing Code. The issuance of this permit makes the owner and the contractors liable to comply by these said codes. The building inspector's approval and issuance of an occupancy permit does not relieve the owner and contractors from this responsibility.

- Applicant will need to be prepared to:
- Submit adequate drawings for any type of construction
- Submit structure set back details
- Submit detail of materials to be used when requested
- Submit drawings for location of a requested fence
- Submit any additional information required by the Building Official

All permit costs must be paid in full at the time the building permit is picked up at Kimberling City Hall. Contractor is responsible for contacting the Kimberling City Building Inspector, or the Public Works Manager if the inspector is not available when construction is complete so a final inspection can be performed at the property. If at that time issues are found the contractor is responsible for correcting said issues in the amount of time set by the City of Kimberling Employee. All inspections require 24 hour notice. City Hall will need to be contacted when an inspection is ready to be set so an inspector can add the appointment to his calendar. City Hall can be contacted by phone or E-mail. Information can be found at the bottom of the issued permit.

I understand and will comply with the above information:
